

Change Orders

The Change Orders tool pane is launched from the [View](#) menu. It contains the list of Change Orders that affect a Process or Operation.

The screenshot shows a software window titled "Change Orders". It contains a table with the following columns: Change Order Number, Operation Code, Operation Revision, Details, Effective Date, Discontinue Date, Destination Operation, Destination Operation, Destination Detail, Destination Effect, and Destination D. The table lists three change orders: No2CO, CO14, and CO5. Each row has checkboxes in the first two columns. Below the table is a scrollbar and the text "All rows loaded."
