

Copy a User Control

To Copy a User Control or Step Grid (Deprecated)

Drag-and-drop the User Control while holding the `Ctrl` key, or use the Copy and Paste option:

1. Select the User Control you want to copy.
2. Use one of the following options to copy the User Control:
 - ▶ Choose **Edit > Copy** from the [Main Menu](#)
 - ▶ Choose **Copy** from the [Right-Click Menu](#)
 - ▶ Use the `Ctrl+C` [Keyboard Shortcut](#)
3. Use one of the following options to paste the User Control:
 - ▶ Choose **Edit > Paste** from the [Main Menu](#)
 - ▶ Choose **Paste** from the [Right-Click Menu](#)
 - ▶ Use the `Ctrl+V` [Keyboard Shortcut](#)
4. The system places the User Controls from the clipboard into the design area:
 - ▶ If all User Controls were copied from the same grid, they are added at the end of that grid
 - ▶ Otherwise, the User Controls are added at the bottom of the screen

The user can copy User Controls or Layout Controls:

- ▶ Within the Layout Editor
- ▶ From the Layout Editor to a Step in the Entity Explorer
