

Duplicate a User Control

To Duplicate a User Control

1. Select the User Control to be duplicated.
2. Use one of the following options:
 - ▷ Choose **Entity >New Revision/Duplicate** from the [Main Menu](#)
 - ▷ Choose **Duplicate Selection** from the [right-click menu](#)
 - ▷ Use the `Ctrl+D` [Keyboard Shortcut](#)
3. The system duplicates the selected User Controls:
 - ▷ If all items belong to the same grid, they are added at the end of that grid
 - ▷ Otherwise, the items are added at the bottom of the screen
4. The system creates the following User Controls related to duplicated controls:
 - ▷ Function Inputs or Outputs – inside dedicated Functions
 - ▷ New Business Control Functions
 - ▷ New Sub-DFC Functions
