

Function Input and Output Properties

The system allows the user to edit the Input and Output properties in the Properties pane.

To Launch the Properties Pane

1. Select the Input or Output in the diagram or in the Entity Explorer.
2. Choose one of the following options:
 - ▷ Choose **Properties** from the Function Navigation [Right-Click Menu](#)
 - ▷ Use the **F4** Keyboard Shortcut
 - ▷ Choose **View > Properties** from the [Main Menu](#)
