	Link File for All Platforms	
	Link File for Desktop Platform	
	Link File for Mobile Platform	
	Undo	Ctrl+Z
	Redo	Ctrl+Y
	Cut	Ctrl+X
	Copy	Ctrl+C
	Paste	Ctrl+V
	Delete	Del
	Find/Replace	Ctrl+F
	Select All	Ctrl+A

Command	Description
Link File for All Platforms	Adds the link to the required file on all platforms (Mobile and Desktop). JavaScript tab <pre><script src="[AprisoScripts]/myscript.js"></script></pre> CSS tab <pre><link rel="stylesheet" type="text/css" href="[AprisoStyles]/mystyle.css"></pre> Alternatively to link script file to all platforms you can use the following syntax: <pre><script src="[AprisoScripts]/asdf.js" data-flx-include="Desktop Mobile" /> <link rel="stylesheet" type="text/css" href="[AprisoStyles]/mystyle.css" data-flx-include="Desktop Mobile"></pre> Mobile and Text platforms are no longer supported.
Link File for Desktop Platform	Adds the link to the required file only on the Desktop platform. JavaScript tab <pre><script src="[AprisoScripts]/myscript.js" data-flx-include="Desktop"></script></pre> CSS tab <pre><link rel="stylesheet" type="text/css" href="[AprisoStyles]/mystyle.css" data-flx-include="Desktop"></pre>
Link File for Mobile Platform	Adds the link to the required file only on the Mobile platform. JavaScript tab <pre><script src="[AprisoScripts]/myscript.js" data-flx-include="Mobile"></script></pre> CSS tab <pre>link rel="stylesheet" type="text/css" href="[AprisoStyles]/mystyle.css" data-flx-include="Mobile"></pre> In runtime, the names of folders in square brackets ([AprisoStyles], [AprisoScripts], and [Apriso]) are changed to a specific path: ▶ [AprisoStyles] is changed to <drive>\Program Files\Dassault Systemes\DELMIA Apriso 2025\WebSite\Portal\Styles\Default ▶ [AprisoScripts] is changed to <drive>\Program Files\Dassault

	Systemes\DELMIA Apriso 2025\WebSite\Portal\Scripts ▶ [Apriso] is changed to<drive>\Program Files\Dassault Systemes\DELMIA Apriso 2025\WebSite\Portal Instead of "[AprisoStyles]/mystyle.css " or " [AprisoScripts]/myscript.js" the full path can be specified (http://...). Files linked to the JavaScript or CSS tab will be added as dependencies to the DFC in the GPM Package. Desktop Mobile values are taken from the Platform System Variable (see Session Variable Input Source topic).
Undo	Undoes the modification.
Redo	Redoes the modification.
Cut	Copies and cuts the selected text.
Copy	Copies the selected text.
Paste	Pastes the selected text.
Delete	Deletes the selected text.
Find/Replace	Opens the Find/Replace dialog Box.
Select All	Selects all of the text.
