

Invoke a DFC from a Step

1. Select the [Step](#) you want to add to the DFC to invoke.
2. Go to the Advanced tab of the [Properties](#) tool pane of the step, and click the **Add** button.
The pop-up window with a complete list of all DFCs available in the system appears.
3. Select the DFC. It will be added to the list of invoke DFCs on the Advanced tab of the [Properties](#) tool pane for the step.
