

Manage Step Navigation Diagram

Perform an Auto Layout

Choose **Autolayout** from the [Right-Click Menu](#) or use `Ctrl+Shift+A` [Keyboard Shortcuts](#).

The system will execute the automatic Auto Layout of the Step Navigation diagram.

Print the Diagram

Use one of the following options:

- ▶ **File > Print** from the [Main Menu Bar](#)
- ▶ Use the `Ctrl+P` [Keyboard Shortcut](#)

A standard Windows printing dialog box will be displayed.

It is possible to preview the Step Navigation diagram content before printing by using the **File > Print Preview** option.

Export the Diagram as an Image

Use one of the following options:

- ▶ Select **Navigation > Save As Image...** from the [Main Menu Bar](#)
- ▶ Use the `F12` [Keyboard Shortcut](#)

A standard **Save As** dialog box will be displayed.

The available image types are: JPG, BMP, and GIF.

Consider using the [Autolayout](#) feature before exporting the diagram.

Refresh the Diagram

Use one of the following options:

- ▶ Choose **View > Refresh** from the [Main Menu](#)
- ▶ Click  (Refresh) on the [Toolbar](#)
- ▶ Use the `F5` [Keyboard Shortcut](#)

The system will refresh the current view.
