

Step Grid Control

It is possible to design the layout of the Step Grid Control.

<div data-flx-stepgrid="StepGrid1">...</div>

Function Navigation	HTML Layout Editor	Runtime
	CSS JavaScript HTML <pre>1 <div data-flx-stepgrid="4a28015b-0003-46e1-aa4d-606db097785a"> 2 <div data-flx-input="InputToOutput1.Input1"/> 3 <div data-flx-input="InputToOutput1.Input2"/> 4 </div></pre> Function Navigation HTML Layout Editor HTML Layout Editor Code	

The Step Grid Control in HTML Layout Editor should be used only for conversion from Layout Editor. Its use for other purposes is not recommended.
