

Validation Messages

The Validation Messages tool pane displays the results of the validation of entities which has been performed by pressing  (Validate) on the **toolbar** or the **Validate** button in the navigation workspace.

Double-clicking a validation message in the list highlights and navigates to the entity on the tree, on the Function Navigation diagram, and in the Layout Editor.

Entity Type	Name	Description
 Input	Button - Char	Operation completed successfully.
 Input	Button - Char	Operation completed successfully.
